

## ROLF WEBER GROUP

For more than 50 years the ROLF WEBER GRUPPE has been known world-wide for its unique stock-keeping of rolling bearings.

### A powerful partner for trade, industry and craftsman

Successfully practised niche politics through anti-cyclical disposition characteristics had the main results, that particularly INA/FAG, SKF and TIMKEN distributors throughout the world, like to avail themselves of our stockage during delivery bottle necks at the manufacturing works. Today we are a competent and powerful partner for trade, industry and craftsmen, with a wide and sensibly compiled range of industrial products. Our range includes anti-friction bearings, linear technology, drive technology, sealing technology, lubricant & adhesive technology, hoses & fittings and workers protective equipment. As a result we are very well prepared for all of the increasingly complex demands of the market. We have built on our strengths in your interest, to continue to maintain optimum ability to deliver, technical consultation and reliable service

**ROLF WEBER GROUP - Competence on the move!**
