

## **XIX. FARMER EXPO**

### **International Exhibition of Agriculture and Food Industry**

**Venue:** University of Debrecen, Centre of Agriculture, Debrecen, Hungary

**Date:** 25th – 28th August 2010

**Main groups of exhibits:** Seed-corn cultivation, plant protection and soil conservation, irrigation, stock breeding ( poultry, sheep, goat, pig, horse, cattle), animal hygiene, fodders, stock breeding tools, machines and technologies, sylviculture and game farming, agricultural mechanics, agrarian architecture, food industry, agricultural services

#### **Speciality:**

- the biggest agrarian forum in the region
- is regarded as the most important agro technological exhibition
- in 2010 at the time of the Farmer-Expo Exhibition, the V. HORTICO Fruit and Vegetable Horticultural Exhibiton - a unique forum in Central-Eastern Europe - will be organised

#### **Objectives:**

- to showcase the worldwide reputation of Hungarian Agriculture
- To ensure the possibility for exhibitors, professionals, conference lecturers, farmers and visitors to exchange experience and new technologies, to negotiate, to do business all in one place
- we would be glad to see foreign companies, investors, agronomists, farm owners, distributors and marketers, who would like to establish relations with the decision makers of agricultural industry from Hungary

#### **Visitors:**

- practical and theoretical professionals
- producers, farmers
- animal keepers, plant growers and professionals, working in agriculture
- 15 % of the visitors coming from neighbouring countries to Debrecen
- 60% of the visitors are part of the decision making as a counselor or as a decision maker
