

HUNYADI KFT

Székhely: H-1183 Budapest, Martinovics tér 24. • Tel.: +36-1-297-2020 • Fax: +36-1-297-2022
Fióktelep: H-4002 Debrecen, Balmazújvárosi u. 10. (DRGA épület) • Tel: +36-52-524-740 • Fax: +36-52-524-744

ENERGIAGAZDÁLKODÁS, VILLAMOSHÁLÓZATI MÉRÉS ÉS ZAVARELHÁRÍTÁS, FÁZISJAVÍTÁS

AS POWER IMPROVES QUALITY OF LIFE, WE IMPROVE THE QUALITY OF POWER!

For more than 25 years now the HUNYADI Kft. offers you the following products and services:

Energy management:

- Energetic reviews: based on electric and thermo measures, invoices,
- Building energetic certification (“green card”)
- Solve energy measuring and invoicing problems, consultation on existing systems,
- Quest for energy saving possibilities, consultancy, cost management, return on invest management,
- Measuring with thermal cameras, thermal status identification of instruments, buildings,
- Sales and installation of energy saving equipments,
- Installation of energy measuring and management systems (with processing and evaluating software, SMS, mail server, web server) for electric and other energy sources,
- Renewable energy management, installations,
- Indoor and outdoor light measurement, reports.

Power Factor Correction, Power Quality Solutions:

- Manufacture, maintenance, reconstruction of low- and medium voltage power factor correction capacitor banks,
- Solutions for special PFC and Power Quality problems (modbus communicating PFC systems, Passive and Active Harmonic Filters, fast switching Dynamic Power Factor Correction with semiconductor modules)
- Sales of PFC capacitors, controllers, contactors, reactors, special power capacitors, Medium Voltage capacitors,
- Power Quality Measurements (voltage distortions, flicker and disturbance measures, harmonic problems)
- EMC and other filter planning, installation.

Electric Engineering:

- Manufacture and reconstruction of Electric Distribution Panels up to 3200A, Control Panels,
- Installation of medium voltage Distribution Panels, transformers,
- Installation of UPS systems, reconstructions, maintenance,
- Installations of electric lines, lighting systems, converting of electric line even on special voltages.
